Freshman Class Tshirt

This is our first project for a real Client! Yay! Some of you may actually wear this tshirt one day so that can be motivation to make a great design. **Due Monday, March 16.**

Project Specs:

- 1-3 Ink colors. Tshirt color will be either black or purple- you can choose which one for your design.
- 12" x 12" maximum size for the design.
- To be completed in Adobe Illustrator (unless you are at home with out access to the software; In that case this can be done on paper with colored pencils or markers).
- Must include the text "Class of 2023"
- May have imagery or just text.

Steps:

- Draw 10 thumbnail sketches by hand. 5 should be just text (this should be very interesting and dynamic design still) and 5 should be text+ imagery
- Choose one of your sketches you want to use. Draw that one bigger with more detail. Get feedback from peers and from Mrs. Granberg
- Begin executing your design on Illustrator. Choose your colors first and create new color swatches. Make sure everything in your design is made from those colors.
- Get critique feedback and refine/revise.
