Process:

1. Find the image you want to use
 - a. Must be: a photograph, full figure, a dynamic/dramatic pose
2. Practice at least 3 gesture drawings on printer paper of your image
3. Start each of the three drawings lightly in pencil before adding other media- you may draw it once and trace on to the other two. With the block-in, start with an envelope shape and keep all your lines straight, geometric and simple.
4. Re-do and refine. It's good to start over sometimes! Don't be attached to your first attempt.
5. Craftsmanship: Each paper should be in good condition and not have unwanted wrinkles, tears or pencil marks
6. Mount your three drawings neatly on black or colored paper as follows with masking tape bubbles on the back of each corner:

3 Figures Rubric: Student name: _____ period: _____
