Monday, Wednesday - Friday Assignment:

I pushed back the due date! I plan to slow down projects a bit in order to be less stressful. Wednesday submit a screenshot of your progress. This MUST be on Microsoft Teams - Graphic Design 2 Super Team NOT the automatic team made for your class period. This is so all the GD2 students are together in one team rather than separate periods. Finish Designing the planner cover! Make sure you have visual interest and an area of emphasis/focal point. Make it relevant to Issaquah High School. Be creative!

Tuesday:

View the video [on my website](#) to help you understand how to get into our team and how we will use teams. Join the team using the class code provided. This is your only assignment today.
